

## ENVIRONMENTAL BEST PRACTICES

With the aim to implement good environmental practices **HYDROO** has introduced throughout processes and activities that may arise rules to make it possible. It is for this reason that **HYDROO** has implemented ISO 14001 and ask all staff to be proactive in achieving this goal.

For both our daily activities and strategic the implementation of the four “R”, Reduction, Recycling, Reuse and Recovery is essential.

### ▶ **Reduction**

Saving water, energy and any product to reduce emissions of greenhouse gases and at the same time, economic savings for the company and minimize waste generation.

### ▶ **Recycling**

Easy to use recycled products and promote the reintroduction to market of waste materials used in any process as well as the proper handling and disposal of hazardous waste.

### ▶ **Reuse**

Do our best to take full advantage of each product

### ▶ **Recovery**

Make use of waste generated by introducing a new process or to valuing the waste.

To our business strategy, it is important that all our management decisions and projects are aimed at saving water and energy for sustainability and environmental improvement.

*The Managing Director*
