

## QUALITY AND ENVIRONMENT POLICY HYDROO PUMP INDUSTRIES, SL

HYDROO PUMP INDUSTRIES, LTD is the European subsidiary of Nanfang Pump Industry Co. Ltd. and offers solutions for water pumping and aims to place its strategic brand HYDROO among the major players in the sector of pump technologies in Europe.

According to this goal, HYDROO adopts a policy of quality and environment-centered commitment **to satisfy customers with reliable and efficient products and services, made with the highest levels of quality and environmentally friendly**. To achieve it the company focuses on processes that add value to customers and shareholders and wants to set up a centre of excellence in quality, agility, flexibility and protection and respect for the environment.

The principles of the Quality and Environment Policy has been organized into the following sections:

### ▶ TO CUSTOMERS / PRODUCTS

**Market-oriented**, offering products and specific services to each pumping customer needs.

Anticipate European regulations concerning pumps for fluids as a stimulus **to improve the energy efficiency of our products**.

### ▶ TO PEOPLE

**Raise Hydroo's team and co-workers** on respect the needs to achieve a high level of quality and efficient environmental management.

Have a staff with appropriate **training and qualifications** for each job, encouraging **professional development** within the company.

### ▶ TO PROCESSES

Be **productive and efficient** in each process.

Creating value from **efficiency in communication** with the parent company.

Pushing **innovation** to the overall organization.

**Reduce the environmental impact** associated with their activities, with particular attention to waste management and reducing them whenever possible in its origin.

In addition, HYDROO ensure the fulfillment of legal and regulatory requirements and to continuously improve the effectiveness of the quality management system and environment.

This policy will be reviewed at least once a year by the Management Committee to ensure its continued relevance to the purpose and future needs of the organization, serving as a basis for setting goals.
