

ITINERÀNNIA, NETWORK OF TRAILS

Itinerànnia is a network of trails, with over 2500 kilometres between the neighbouring regions of Ripollès, Garrotxa and Alt Empordà.

A network of hiking trails is like a road map, but with footpaths, allowing the hiker to get from any one point to another.

It retrieves the old historic roads between the villages to reach many small places.

The network offers many different hikes depending on the time or difficulty and your interest over nature, on the time or difficulty and your interest over nature, architecture or culture.

Each route that we propose is just a little taste of an extensive network of trails that you can walk to discover the Ripollès, Garrotxa and Alt Empordà counties.

THE SIGNS

All the trails of the network are marked regularly over the paths with horizontal painted yellow signs.

PATH'S MARKS
(3 x 10 cm)

TURN LEFT / RIGHT

WRONG PATH

The marks are placed approximately every 300 metres painted on tree trunks, stones or using other mediums already deployed in the area.

The vertical signs is located at crossroads. The basic network signalling (banners with red tip) indicate the 4 nearest population in each direction and time needed. The banners of the itineraries of the municipalities, as the one you have in your hands, have a green tip shows the name and direction of the route.

You will find information boards with a map of the county's trails in every village or city integrating the network.

Itinerary that rediscovers the royal path from Ribes de Freser to Ogassa crossing Bruguera (1 200 m above sea level), a small village nestled in the sunny and western side of Taga. The route reaches the highest summit of Serra Cavallera, Taga, which with its 2 040 m above sea level is a wonderful balcony to enjoy the views of Eastern Pyrenees, Cadí-Moixeró and Serra de Montgrony. Please remember to keep your pets leashed at all times as this is a pasture area.

Linear route that starts in the centre of **Bruguera R135**. This small village is formed by a group of farms and old village houses around the church of Sant Feliu and along the path to the forestry road of coll de Jou. From this point, the estimated time to arrive to the Taga summit is about 3 hours.

Go up progressively until elevation 1 300 by following the yellow signs that lead to the car park of torrent de la Corba ravine. Here, on your left, there is the path that goes through the Serrat de l'Home. It catches up to the meadows of coll de Pan and gets into the forest again to finally arrive at **coll de Jou R134** after a two-hours walk.

In this sign, leave the Itinerània path to climb to the summit. After the sheep track, turn left. Always leaving the electrical fence on your left, and following the yellow signs, arrive at the small shelf of Cabanes plain from where you can see the Taga Cross. Follow the outlined path to get the top of the mountain one hour later.

Go back down by the same way.

There is the possibility to connect with the Ribes-Taga Route. Just follow the signs and come down to Ribes de Freser.
