

## ITINERÀNNIA, NETWORK OF TRAILS

Itinerànnia is a network of trails, with over 2500 kilometres between the neighbouring regions of Ripollès, Garrotxa and Alt Empordà.

A network of hiking trails is like a road map, but with footpaths, allowing the hiker to get from any one point to another.

It retrieves the old historic roads between the villages to reach many small places.

The network offers many different hikes depending on the time or difficulty and your interest over nature, on the time or difficulty and your interest over nature, architecture or culture.

Each route that we propose is just a little taste of an extensive network of trails that you can walk to discover the Ripollès, Garrotxa and Alt Empordà counties.

## THE SIGNS

All the trails of the network are marked regularly over the paths with horizontal painted yellow signs.

PATH'S MARKS  
(3 x 10 cm)

WRONG PATH

The marks are placed approximately every 300 metres between the neighbouring regions of Ripollès, Garrotxa and Alt Empordà.

The vertical signs are located at crossroads. The basic network signalling (banners with red tip) indicate the 4 nearest population in each direction and time needed. The banners of the itineraries of the municipalities, as the one you have in your hands, have a green tip shows the name and direction of the route.

You will find information boards with a map of the county's trails in every village or city integrating the network.

At this point, the route rises until the intersection of **Mas Ventós R129** that leads uphill to the town square of **Pardines R130**. You can visit the town. Retrace the path again until the intersection of **Mas Ventós R129**. On your left cross the Segadell by pont de l'Orri in the sign Pd1 - pont de l'Orri.
