

ITINERÀNNIA, NETWORK OF TRAILS

Itinerànnia is a network of trails, with over 2500 kilometres between the neighbouring regions of Ripollès, Garrotxa and Alt Empordà.

A network of hiking trails is like a road map, but with footpaths, allowing the hiker to get from any one point to another.

It retrieves the old historic roads between the villages to reach many small places.

The network offers many different hikes depending on the time or difficulty and your interest over nature, on the time or difficulty and your interest over nature, architecture or culture.

Each route that we propose is just a little taste of an extensive network of trails that you can walk to discover the Ripollès, Garrotxa and Alt Empordà counties.

THE SIGNS

All the trails of the network are marked regularly over the paths with horizontal painted yellow signs.

The marks are placed approximately every 300 metres between the neighbouring regions of Ripollès, Garrotxa and Alt Empordà.

The vertical signs are located at crossroads. The basic network signalling (banners with red tip) indicate the 4 nearest population in each direction and time needed. The banners of the itineraries of the municipalities, as the one you have in your hands, have a green tip shows the name and direction of the route.

You will find information boards with a map of the county's trails in every village or city integrating the network.

ROUTE RIBES PLANOLES

Section 1: Ribes Roques Blanques

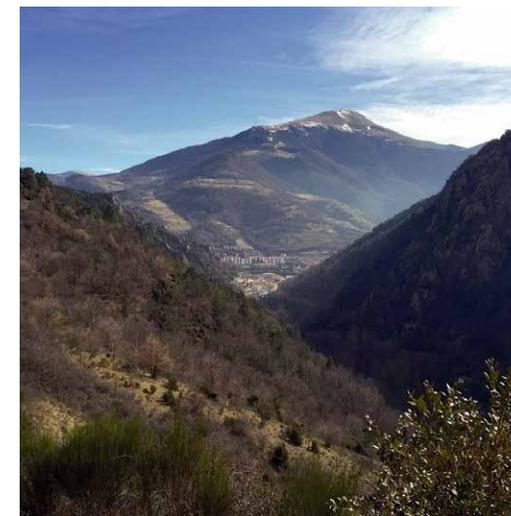

ROUTE SPECIFIC INFORMATION

Time: 1h 35min
Distance: 3,6 km
Max. height: 1.110 m
Min. height: 919 m
Accumulative slope ascent: 213 m
Accumulative slope descent: 157 m
Difficulty: Easy

This is an easy route that leaves from Carrer Cerdanya, the old "royal road," passing by the remains of the Segura castle. The walk offers views of Batet, Ribes de Freser, the Taga hill and Sant Antoni. This is a path that connects the Roques Blanques neighbourhood with Ribes de Freser without passing along the road.

We set out from the **R125 crossing** over the rack railway line and head towards the collada de Segura pass. We pass by the **R145 camí de Sant Antoni** crossing, from which we could head for Roques Blanques, but on this occasion we will walk to the Segura hill, along the bucolic narrow carrer Cerdanya, the old "royal road." We reach the **R122 Sant Cristòfol** crossing, with its fountain and chapel, and take the path that leads to the **Segura pass**, the **R120** crossing.

To go towards Roques Blanques, we turn left and reach the hostel after around 45 minutes (passing the **RF16 Pont de Roques Blanques** crossing).

At this point we have various options:

- To continue the second section of the route to Planoles;
- To return to Ribes de Freser by the same path;
- To return to Ribes de Freser via the Casassa pass, following the Ribes-Roques Blanques route, reaching Ribes in around an hour and forty minutes.
