

Matrix® Green PU Fingerless

With three open fingers and a flexible polyurethane coating, the Matrix® Green PU Fingerless enables precise handling in applications necessitating fingertip contact. It attains maximum EN388 scores for abrasion, cut and tear resistance in non-exposed areas and yet is extremely lightweight and flexible. The resilient polyurethane coating is extremely durable and performs well in dry and light oil handling conditions. In summary, this glove delivers excellent performance, reliability and is exceptionally good value for money.

Typically used for:

- Precision Handling
- General Assembly
- Component Handling
- Automotive Manufacturing
- Electronics
- Engineering Work
- Metal Fabrication
- Sheet Steel Manufacture

Case Quantity:

12 pairs per polybag
48 pairs per case
