

Polyflex[®] Ultra

Polyflex[®] Ultra is a seamless nylon liner with a foamed palm coating made from a blend of polyurethane and nitrile. This premium glove from Polyco's renowned Polyflex[®] range utilises a blend of polyurethane and nitrile to provide excellent grip in wet, dry or oily handling applications. The foamed coating is light and breathable, and combines the resilient and durable properties of polyurethane with the strength of nitrile. This highly flexible coating has a slightly roughened finish, which further improves handling performance. Add to this the soft, comfortable nylon liner, and you have a glove with unparalleled comfort which allows for long periods of wear without any signs of hand fatigue. With its excellent abrasion resistance, luxurious comfort and liquid repellent properties, you are assured of yet another benchmark product from Polyco.

Typically used for:

- Automotive Engineering
- Construction
- Carpentry
