

ROUTE 5

Rosas-Cadaqués

Non circular route

Difficulty level: medium-high

Distance: 22km

Average time: 2:15/5:00

Maximum inclination: 9,8 %

Accumulated ascension: 775m

This route is not circular but we will do. You will leave Burricleta Center and go along the coast until Cadaqués by the ancient route, inside the protected zone of the Natural Park of Cap de Creus. To return to Rosas, there are many possibilities, by bus, by the little touristic train and in summer by boat, and others that we will inform you.

This route can be done in 2h 30 or more, it depends on the time you spend enjoying the landscape.

Leaving Burricleta Center, you will reach the beach and go along the port of Roses until the lighthouse. Then, you will descend to Canyelles Beach and you will make a small slope and it will normalize and reach Punta Falconera. From this place, you can enjoy the beauty of Roses' bay and visit the bunkers, but we recommend be done by foot.

After you will descend to Cala Montjoi, where from Easter until the end of summer you will find a Bar or a restaurant to make a good break or bath and recharge yourself, because now it takes to up a slope of 300 meters (acumulated ascension) in 8 km but the views are worth. Later, you will get your recompense because you will descend until Cadaqués looking the beautiful views. Once, in Cadaqués you can profit of the village's hospitality and if you have enough time and energy, we suggest doing our Dali's and Cap de Creus route.
