

CoDaWork 2019

The 8th International Workshop on Compositional Data Analysis June 3-8 · 2019 Terrassa

What is CoDaWork2019?

CodaWork2019 is the eighth edition of the international Workshop on Compositional Data Analysis. CodaWork2019 is a forum intended for discussion of research issues related to the quantitative treatment and modelling, interpretation of models, and all sorts of applications involving **compositional data**. During CoDaWork2019 Workshop there will be:

- some invited talks,
- oral contributions,
- poster contributions .

Prior to the Workshop, a one-day course on compositional data will be offered.

We keep CoDaWork pivoting around applications in different fields. On previous editions, those included: engineering, econometrics, psychology, official statistics, linguistics, medicine, biology, genetics, microbiome, demography, morphology, earth, planetary and environmental sciences, archaeometry, forensics...

VENUE

The Workshop will take place in Terrassa, at the Universitat Politècnica de Catalunya and the Hotel Don Cándido. Terrassa is located 28km from Barcelona.
