## OFFICIAL COMMUNICATION 4

### Adverse Weather Conditions - Time-Trial: Heats round

Following its assessment that the weather conditions have created unfair racing conditions, the FISA Executive Committee has decided to implement a Time-Trial System for the Heats round. Crews will be timed from the fixed start over 2000m. Events with 13 or more entries have had their repechages and quarterfinals scheduled for today (Friday) cancelled. Events with 12 or fewer entries shall keep their progression with repechages scheduled for Saturday. The progression and instructions for the time trial have been distributed to teams. Racing will commence at 14.30hrs.

FISA Executive Committee
